VT32

A British designed turf system with suitable shockpad making it the aspirational product of all professional football and hockey clubs looking for the dual turf to meet both FIFA and FIH international standards. Using the innovative Rhino-Turf Thatch Concept we have a fully integrated RootZone protection for the profiled monofilament yarn fibres, offering infill stability leading to infill splash reduction which results in less infill migration and a more uniform playing field. A SAFER system with **STRENGTH IN PERFORMANCE.**
